COMPANY PROFILE

Hajwane's Healthcare

Leaders in Marine Medical Services & Occupational Health Services

Hajwane's Healthcare is one of the first board certified Occupational Health Services company based in Mumbai-India, catering to the needs of the Maritime & offshore and related Industries.

Hajwane's Healthcare (Previously known as Hajwane's Medical & Diagnostic Centre) is a Healthcare group that has proven success in preventing claims, reducing costs and providing quality healthcare services at very competitive & economic costs.

Hajwane's Healthcare helps companies to develop & implement comprehensive occupational health programs that develop better employee health, decrease health-related costs, improve employee morale, reduce absenteeism and increase productivity.

We specialize in minimizing both Work place illness / on board medical sign offs, Insurance Board premiums & short term disability costs for our clients.

By undertaking comprehensive Healthcare packages we analyze the health status of the employees, predict the health risk and ensure better health among company employees. Quality healthcare gives healthy workforce which leads to reduced sign off on medical grounds.

***Our heritage has been successfully built on
Quality, Reliability & Efficiency.***

COST SAVINGS :

Healthcare is a major expense for any business today. Costs have been rising over the past decade and most experts agree that the trend shows little chance of reversing in the future.

If you are a business owner, human resource manager or in any way responsible for the healthcare investment of a business, you know what this means. Rising operating costs such as health benefits, a tight labour market and the need for employees to be safe, well and productive, all have a tremendous effect on the bottom line. With health care cost spiraling upwards, companies need to improve employee health.

That's where Hajwane's Healthcare comes in. We can provide injury and illness management services, preventive health strategies, wellness education, referrals for medical treatment, cost containment programs, ergonomics, and disability case management. By helping you to maintain a healthy, productive workforce, your company will realize substantial competitive benefits and cost savings that go straight to the bottom line.
